

As the new vintage is going to be bottled very soon we thought it might be the right time for a brief update on our Pinot Noir producer and dear friend Jacob Duijn. As it might not be very surprising the international recognition of the DUIJN pinots is growing steadily. Now it seems to become even clearer that these wines are on par with international top cru's.

Just to prove this Jacob Duijn was invited to introduce the grape variety Pinot Noir in Vienna at the so called World Wine Festival. <http://www.weltweinfestival.at/> Under the slogan "Pinot Noir – The International Facet's of a Diva" Jacob Duijn together with no lesser person than Jim Clendenen from "Au bon Climat" <http://www.aubonclimat.com/> introduced only the best Pinots including their own wines to a selected customer group.

As the vintage 2006 appears to be very small in volume we ask all customers interested in these wines, to contact us regarding allocation.

Thank you very much!
